

PROPOSES FOR REVISION OF THE WORKPLAN AND TIMETABLE

Presented by: SOMBOON SIRIRAKSOPHON

COMPONENT 1: Identification and management of fisheries and critical habitat linkages at priority fisheries refugia in the South China Sea 1.1 Developing fisheries and coastal habitat information and data collection programmes for 14 priority fisheries refugia sites (underpins Outcome 3.5) 1.1.1. Review existing information and data on fisheries and coastal habitats at 14 sites, including needs for management interventions identified 1.1.2 National consultation workshops to secure community and fisherfolk support in information & data collection 1.1.3 Design and conduct site-based surveys to produce fisheries and habitat profile report for 14 sites 1.1.4 Design and conduct fisheries surveys at 14 sites and submit data to a national & regional online database 1.2 Facilitating agreement among stakeholders on the boundaries of fisheries refugia at 14 priority fisheries refugia sites 1.2.1 Conduct consultations (including at-sea) to draft maps of fisheries refugia for priority species at 14 sites ites 1.2.2 Prepare maps for 14 refugia and elicit fisherfolk input to boundary delineation through consultation 1.2.3 Conduct assessment of environmental and social impacts of refugia designation at 14 locations 1.2.4 Secure formal government designation of sites as fisheries refugia at 14 priority fisheries refugia sites 1.3.1 Developing Community-Based Management Plans for 14 priority fisheries refugia sites 1.3.2 Consultations to identify key threats to fisheries refugia sites and identify management measures			YEAF	R 1> 20	17		YEAR	2> 20	18		YEAR	3> 20	19		YEAR 4> 2020			
1.1.1. Developing fisheries and coastal habitat information and data collection programmes for 14 priority fisheries refugia sites (underpins Outcome 3.5) 1.1.1. Review existing information and data on fisheries and coastal habitats at 14 sites, including needs for management interventions identified 1.1.2 National consultation workshops to secure community and fisherfolk support in information & data collection 1.1.3 Design and conduct site-based surveys to produce fisheries and habitat profile report for 14 sites and submit data to a national & regional online database 1.2 Facilitating agreement among stakeholders on the boundaries of fisheries refugia at 14 priority fisheries refugia sites 1.2.1 Conduct consultations (including at-sea) to draft maps of fisheries refugia for priority species at 14 sites sites 1.2.2 Prepare maps for 14 refugia and elicit fisherfolk input to boundary delineation through consultation 1.2.3 Conduct assessment of environmental and social impacts of refugia designation at 14 locations 1.2.4 Secure formal government designation of sites as fisheries refugia at 14 priority fisheries refugia sites 1.3.1 Developing Community-Based Management Plans for 14 priority fisheries refugia sites 1.3.1 Consultations to identify key threats to fisheries refugia sites and identify management measures		Activity Description	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4
1.1.1. Review existing information and data on fisheries and coastal habitats at 14 sites, including needs for management interventions identified 1.1.2 National consultation workshops to secure community and fisherfolk support in information & data collection 1.1.3 Design and conduct site-based surveys to produce fisheries and habitat profile report for 14 sites 1.1.4 Design and conduct fisheries surveys at 14 sites and submit data to a national & regional online database 1.2 Facilitating agreement among stakeholders on the boundaries of fisheries refugia at 14 priority fisheries refugia sites 1.2.1 Conduct consultations (including at-sea) to draft maps of fisheries refugia for priority species at 14 sites 1.2.2 Prepare maps for 14 refugia and elicit fisherfolk input to boundary delineation through consultation 1.2.3 Conduct assessment of environmental and social impacts of refugia designation at 14 locations 1.2.4 Secure formal government designation of sites as fisheries refugia at 14 priority locations 1.3 Developing Community-Based Management Plans for 14 priority fisheries refugia sites 1.3.1 Consultations to identify key threats to fisheries refugia sites refugia sites and identify key threats to fisheries refugia sites and identify wherast to fisheries refugia sites and identify wherast so fisheries refugia sites and identify management measures	COMPONE	NT 1: Identification and management of fisheries and	d critic	al habi	tat linl	cages a	t prior	ity fish	neries <i>r</i>	efugia	in the	South	China	Sea				
and coastal habitats at 14 sites, including needs for management interventions identified 1.1.2 National consultation workshops to secure community and fisherfolk support in information & data collection 1.1.3 Design and conduct site-based surveys to produce fisheries and habitat profile report for 14 sites and submit data to a national & regional online database 1.2 Facilitating agreement among stakeholders on the boundaries of fisheries refugia at 14 priority fisheries refugia sites 1.2.1 Conduct consultations (including at-sea) to draft maps of fisheries refugia for priority species at 14 sites 1.2.2 Prepare maps for 14 refugia and elicit fisherfolk input to boundary delineation through consultation 1.2.3 Conduct assessment of environmental and social impacts of refugia designation at 14 locations 1.2.4 Secure formal government designation of sites as fisheries refugia at 14 priority locations 1.3 Developing Community-Based Management Plans for 14 priority fisheries refugia sites 1.3.1 Consultations to identify key threats to fisheries refugia sites and identify management measures	1.1	Developing fisheries and coastal habitat information	on and	data d	ollecti	on pro	gramn	nes for	14 pri	ority fi	sheries	refug	ia sites	(unde	rpins (Outcom	ie 3.5)
